BeSafe®**iZi Modular™
i-Size Base****CAR LIST**UN regulation no. R129
i-Size

! Notice: DO NOT use on a passenger seat fitted with activated frontal airbag.

2**Recommendation list for cars and installation of iZi Modular i-Size base**

The iZi Modular i-Size base is an universal i-Size child restraint system. It is approved to regulation R129 to use in all vehicle positions marked with the i-Size logo. The iZi Modular i-Size base is also suitable for fixing into the seat positions of the cars listed below, providing approved ISOfix points are fitted and available. Seat positions in other cars may also be suitable to accept this child restraint, however we have not yet tested that Combination of car and iZi Modular i-Size base. If in doubt, consult either BeSafe or the retailer.

For updated carlist see: www.besafe.com

It will fit vehicles with positions approved as ISOfix positions (as

detailed in the vehicle handbook), depending on category of the

child and of the fixture. The mass group and the ISOfix size class for

which this device is intended is : D.

When the support leg is positioned on a storage compartment in

front of the car seat, this compartment has to be completely filled

up with Expanded Poly Styrene foam (EPS), so that the cover can

hold the forces of the support leg. Consult the car dealer, if they

offer a special solution. When the floor under the floor support is

unufficient to hold the forces you can not use the iZi Modular i-Size

base in this position of the car.

Carseat positions marked with * can have a storage compartment in

front of the seat. ISOfix anchorage in the passenger seat (position

1) are normally offered as option, so depending on the model this

position can be available or not.

BeSafe recommends to install the iZi Modular i-Size in all vehicle

seat positions which are intended to be used and check installation,

available space in the vehicle and position of the child, to verify if

the iZi Modular i-Size is acceptable for your situation.
