

## BABY-SAFE 5Z – Pushchair Compatibility

- Listed pushchairs passed compatibility testing with BABY-SAFE 5Z by an external test institute
  - pushchair compatibility can be communicated officially to retail/consumers
- In parallel, we are in contact with the brands to get them claim compatibility on their side as well
- For launch, the overview of pushchair compatibility will also go online on our website

**IMPORTANT:** Listed pushchairs were the defined priority pushchairs across EMEA. For further brands/models we continue to reach out to them to get them to conduct compatibility testings on their sides. If you see an important brand/pushchair model missing for your region, please let us know.
